

High School Area

Indian Trails Library's High School Area is intended for use by high school students in grades 9-12. While all members are welcome to browse and check out materials from the High School Area, the computers and furniture in this area are reserved for the exclusive use of high school students after 3:00 pm during the school year, all weekends, and all day on school holidays including summer vacation. Members who are not in high school may be asked to move elsewhere in the library during these times. During school hours, the computers and furniture in the High School Area are available to all members.

Adult tutors who are working with high school students may use the high school area for tutoring sessions, but must vacate the area when tutoring sessions are not taking place.

All members using the High School Area are expected to follow all library policies.
